

## ACTIVITY 1:

### MAKE A PET TOY FROM OLD OR ODD SOCKS

- Get some old socks you no longer need. Except for the outer sock, all the other ones can even have holes in them.
- Take one sock (with no holes) and stuff it with about five of the other unwanted socks. Fit them in so that they sit comfortably and the end result is squishy but not lumpy.
- Cut a small hole in each side at the top of the leg end of the outside sock to make something to tie with (Leave the toe end intact.)
- Tie the two sides together in a tight knot using string or other cord (even an old shoe lace). Then tie a tight knot to make sure it doesn't come apart (a reef knot or granny knot are our suggestions but can you think of another?).
- Fluff up the toy and make sure it's not lumpy. It should look a bit like a two tailed fish but your dog will just see it as pure fun.

## DON'T JUST DO IT – SHARE IT

Did you make a sock toy something else? Why not share it on
